# VECTORWORKS®

Installing Furniture Manager in Vectorworks
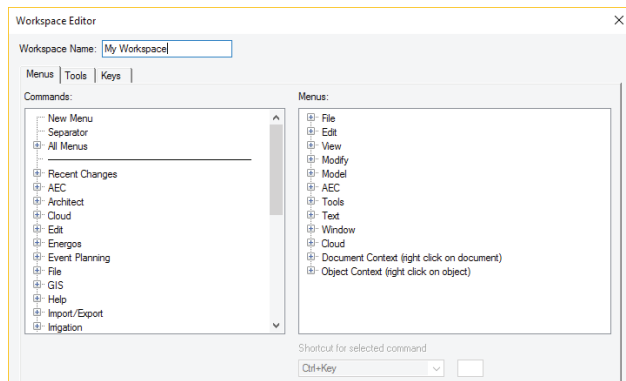

Installing Furniture Manager

1. Double-click the installation file „FurnitureManager.exe".
2. Select in the emerging dialog which version of Vectorworks Furniture Manager is to be installed in.
3. Follow the instructions in the dialog.

## Including Furniture Manager into the Vectorworks Workspace

1. Open the "Workspaces" dialog (Menu "Tools" → Pop-up Menu „Workspaces"). If you have not yet created your own workspace, you should create a copy of the workspace you are currently using.

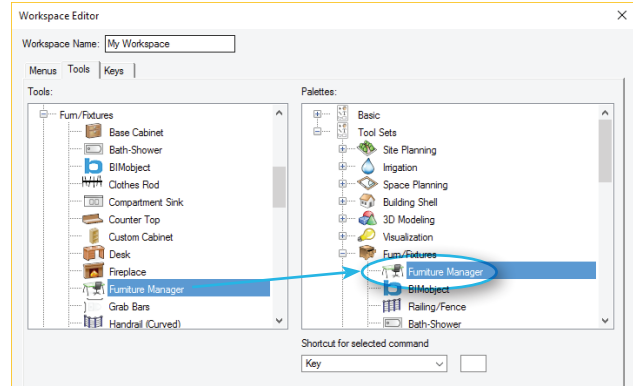

Klick "Edit" und name the Workspace as desired.

2. Open up "Furn/Fixtures" in the left column of the "Tools" tab, and "Furn/Fixtures" in the right column.

3. Scroll down in the left column until you have found the "Furniture Manager" tool. Click on it and drag it into the designated tool set in the right column.

4. Open "Modify" in the left column of the "Menus" tab. Scroll down in the left column until you have found the "Create Offer in Sales Configurator" menu. Click on it, and drag it to the designated place in the right column.

TIP: If you wish to invoke Furniture Manager with a key shortcut, click on the right side of the tool in the right column. Select the key combination in the "Shortcut for selected command" popup, and type the key.
